See below - for e-mail message from Portier to Mathy re: ATSDR's health consult ... in addition, Lora also shared with me that CDC was going to respond to a reporter's inquiry on the subject with the following:

# Ex. 5 - Deliberative

Let me know if you have any questions

Ron

Ron Borsellino  
Director  
Hazardous Site Cleanup Division

**Subject:** Dimock

Mathy,

ATSDR appreciates the opportunity to continue to work closely with EPA on the private well evaluations in Dimock. To address EPA Region 3's December 2011 request to ATSDR, as well as individual requests ATSDR has received directly from residents since the fall of 2011, ATSDR will provide a focused public health review of EPA's 2012 private well sampling information from Dimock in a health

consultation document. This document will primarily focus on EPA's comprehensive 2012 private well sampling information. ATSDR has already informally agreed with EPA's individual well by well toxicological screening evaluations of this 2012 private well sampling information. This proposed health consultation will formally document this agreement, as well as provide our public health evaluation of general potability water quality issues in these private wells (this is outside of EPA's CERCLA regulatory authorities).

C.
